

# Regan Swallow Design Ltd.

## Plan 1668

The living and dining rooms boast a two storey vaulted ceiling and rear facing French doors opening into a spacious vaulted screened porch.

The Master suite and bath is designed to be wheelchair accessible including a curb less shower and access to the rear screened porch through French doors.

The second level has two additional bedrooms with a shared bathroom and desk space overlooking the front entry.

Plans are designed with the furnace located in the crawl space foundation.
